PATTERSON GOT RID OFF

(From Saturday's Advertiser.)

Inspector Patterson was discharged yesterday by Charles Smith, engineer in charge of construction of the Nuuanu dam. Last night Mr. Patterson made the following statement to an Advertiser reporter:

"I don't see any particular reason for my discharge, only that I complained about the work in progress as being unsatisfactory."

"Mr. Smith said he had always placed confidence in me, but had found he was leaning on a broken reed. Judging by his conversation, it was because I had not stayed by the department but had reported them."

"I am very glad they have discharged me. It has lifted a big load off my shoulders and the citizens have it."

"This morning, when I went up there, they were still covering up the pipes that had been condemned, and lumber was on the way to reconstruct the one that was in the knockdown shape. In all probability they will complete that part of the work that has been condemned before the investigation, because that is the ridiculous part."

"For my own satisfaction I shall endeavor to find out, from time to time, what is being done on the dam."

"Smith condemned that work repeatedly to me and others of the crew."

THE KOREA'S HOLD-UP.

The big liner Korea was scheduled to sail today for Honolulu and the Orient, but on account of the tie-up of shipping resulting from a disagreement of steamship owners and sailors her date of departure is uncertain. Most of the 180 saloon passengers booked for the Korea were paid back their passage money, and nearly every one went north to take passage on some one of the liners running from the Sound to the Orient. Not a pound of the Korea's outward-bound cargo has been taken aboard, and even after the settlement of the labor difficulties it will require several days' time to load the huge liner.

Chronicle, June 25.

The schooner W. H. Martin sailed from Hilo for the Coast on Wednesday.

COMMERCIAL

BY DANIEL LOGAN.

Ninety-six degrees test centrifugals have remained steadfast since last report at \$70 a ton. The parity for 88 analysis beets has fluctuated, returning at the close to \$74.80 after having been twice at \$75.20. Willett & Gray's circular of June 7 says: "Cuba and the United States working together and leaving Europe out of consideration are in a good normal condition for steadiness and a moderate improvement, which must continue unless European complications come to a focus in an important decline."

Prices of sugar stocks on "change" for the week have been steady, with some slight graduations up or down in different ones. Transactions have been as follows: H. C. & S. Co. (\$100), 10 at \$79.75, 5, 10 at \$80; Kihel (\$50), 20, 20, 5 at \$8.75; McBryde (\$20), 150 at \$5; I. I. S. N. Co. (\$100), 17 at \$125; Hon. Brewing & Mfg. Co. (\$20), 50 at \$25; Oahu (\$100), 19 at \$95; Ewa (\$20), 100, 80 at \$23; Hawaiian Sugar Co. (\$20), 50 at \$35; O. R. & L. Co. (\$100), 20 at \$90; Mutual Telephone (\$10), 90 at \$9; Waiakua (\$100), 15 at \$57.50, 5, 5 at \$58; Waiakua 58, \$1000 at 98.

REAL ESTATE AND BUILDING.

An extensive sale under foreclosure of mortgages made by Lee Alilo to W. R. Castle, R. R. Hind, etc., was held at Morgan's yesterday with the following results: Over 3 acres at Kapalama, to Sam Andrews for \$1425. Two lots, 1.96 acres, Punaluu, Kaneohe, to order H. Waterhouse Trust Co. for \$875. Two lots, 3.68 acres, Punaluu, to order H. Armitage for \$2500. Apanas 3 and 4 in L. C. A. 1234, to C. A. trustee, for \$200. Apana 3 in L. C. A. 2676, to order A. N. Campbell for \$120. Premises covering 3.5 acres in L. C. A. 2673, Palaa, Waiakua, to order A. N. Campbell for \$300. Premises in R. P. 2532 on L. C. A. 7171, to order C. Bolte for \$235. One and 16-100 acres to order W. C. Weedon for \$240. Two apanas to order C. Bolte for \$435. Two apanas to order W. C. Weedon for \$315. Three apanas, 2.40 acres, Kaneohe, to H. Armitage, trustee, for \$540. One apana, 1.19 acres, to order W. C. Weedon for \$210. Three acres at Waiakua with buildings to H. A. Heen, trustee, for \$530. Also, 47.5 acres at Kaunama, Hilo, mortgage of W. G. Borden to Western & Hawaiian Investment Co., to order A. N. Campbell for \$1000. There were but two or three withdrawals and it was one of the best land sales in a long time.

F. Fitz, trustee, yesterday bought two acres of land between 6th and 7th avenues, Palolo tract, for the site of a private school, from Y. Anin for \$1800. Deeds have been recorded as follows: Allen Herbert and wife to Morris Rosenblatt, land in Kalihi valley, \$2250; S. M. Kanakani and wife to Wm. R. Castle, 11 lots in Kekio tract, Honolulu, \$3000; Carlos A. Long et al. to Daniel Bellew, land in Palolo valley, \$2150.

Land Commissioner Pratt sold two leases of government lands yesterday as follows: 26.40 acres rice land and 18.59 acres kula land, Anahola, Kauai, five years at \$301 a year to Hee Fat; 2.52 acres rice land and 7.17 acres kula land, Kaneohe, Oahu, at \$151 a year to C. Lai Young.

Lucas Brothers were awarded the contract for erecting two dormitories and a refectory building for Oahu College for \$118,209, the work to be completed within 270 days. The trustees of the college have decided to build a new house for the president, to move his present house and make it the residence of the principal of Punahou Preparatory, and to change Bingham hall into a school building.

Land Commissioner Pratt may shortly offer land in Makiki valley for sale, in five lots of two acres each, at an upset price of about \$2000 each.

GENERAL REVIEW.

Special Agent Jared G. Smith in charge of Hawaii Experiment Station, reports progress in several important matters to the Board of Agriculture. He will transfer tobacco experiments from the Louissou land to the land set apart for a purpose by the Territorial Government. In this connection it may be stated that a furor has been created among smokers in town within the past two days by the distribution by T. J. Fitzpatrick of the first consignment of Hawaiian cigars manufactured by Mike Wright at Seattle. The cigars are made of one-half of Hawaiian grown tobacco and one-half of the finest Vuelta Abajo imported Havana. They are voted to be among the best cigars ever sold in Honolulu. About 350 smokers of the Bluefields bananas, the natural increase since Jan. 1, 1904, have been prepared for distribution at the station. Experiments with fertilizers are to be made on the Maui rubber plantations. It is promised that a vegetable pathologist will be sent here from Washington this year. J. E. Higgins will proceed from the station to the Coast by an early steamer to make arrangements for the proper handling of Hawaiian fruits there. An experiment in shipping our fruit, fresh, to New York will be made.

After four years of effort, Guy Owens had the satisfaction on Friday of receiving cable news that President Roosevelt had signed his Automatic telephone franchise. It is for a term of twenty-five years.

Owing to the holdup of the P. M. S. S. Korea by the strike in San Francisco, most of the 180 passengers booked for her present voyage received back their fares and went north to take passage in some of the liners running from the Sound to the Orient.

A very favorable report was made by the Committee on Claims on the House bill to refund to Hawaii \$23,393.69 expended by the Territory on light-houses until they were taken over by the Federal Government.

Freight will be carried over the Wahiawa branch of the Oahu railway by the end of this week.

While, as the Advertiser showed from official statistics, the average price of rubber imported into the United States the past year was 74.2 cents a pound, it has been pointed out by a correspondent that "fine Para" was \$1.30 a pound in 1905. "The plantations in Hawaii," it is added, "expect to put on the market a quality of rubber equal in grade to the best Para, and their rubber should bring an equally high price."

The Board of Agriculture has recommended to the Governor the proclamation of a forest reserve in the district of Kaa, Hawaii, of 75,000 acres.

In about fifteen days from now the great electric power plant on Kauai will be put in operation. A current of 17,500 volts will be generated, which will go to the McBryde Sugar Co. as power for its pumps.

The Central Mill Co., composed of H. P. Baldwin, S. M. Damon, E. E. Paxton, W. O. Smith and T. W. Hebron, with a capital of \$375,000 and privilege of increase to \$5,000,000, has filed articles of association. Mr. Baldwin holds most of the stock. It is the purpose of the company to unify the milling interests of Puna and Haiku plantations.

A. V. Gear has incorporated his "zoo" under the name of Kaimuki Heights Zoo Company, Ltd., with a capital of \$20,000 and privilege of raising it to \$50,000.

Oahu Lumber Co. has been absorbed by the S. E. Slade Lumber Co., and it is reported that the latter will undertake the rafting of logs from the Sound and converting them into lumber here.

The Hawaiian Mahogany Co. has begun the sawing of koa lumber on Hawaii.

Ocean steam arrivals for the week have been the Siberia from the Orient, the U. S. S. Iroquois from Midway, the Nevada from Tacoma and Seattle, the transport Thomas from San Francisco and the collier Kirkfield from Newcastle, N. S. W. Departures have been the Siberia and the Alameda for San Francisco.

LITTLE TALKS

CIVIL ENGINEER—I understand Howland is now studying to be an undertaker. He wants to bury his mistakes.

WILL ROTH—The way those "farmers" from Ewa came up and beat the city chaps at tennis the other day was rich.

BYRON BAIRD—Yes, I'm getting an Irish promotion by going to Hilo to become the Deputy Collector of Customs there, but I think I'll like the place.

M. C. PACHECO—Now that we are to have Sunday baseball, I would suggest to the League trustees to take all saloon advertisements from the baseball grounds.

MANAGER NOAH GRAY—There are a lot of Colorado people preparing to revisit Honolulu this winter and they will bring a lot of automobiles with them, too.

JACK LUCAS—I stick to it that Dr. Cofer knows what he is talking about when he says that the city garbage can be burned and disposed of in a sanitary way on the dumps.

HENRY HAPAI REGISTRAR—You meet a saloon man and ask him how business is and he shakes his head and says, "Nothing in it," but still the new applications come in just the same for licenses.

COL. J. H. FISHER—I think it would be economy to have an expert

SORE HANDS

Red, Rough Hands, Itching
Burning Palms and Painful
Finger Ends

ONE NIGHT TREATMENT

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Millions of Women Use Cuticura Soap

Exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in One Soap at One Price, the best skin and complexion soap, the best toilet and best baby soap in the world.

Complete External and Internal Treatment for Every Humour. Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to instantly allay itching and irritation and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. Aut. Depot: R. TOWNS & Co., Sydney, N. S. W. Sole African Depot: LEXSON LTD., Cape Town.

R. J. COLLIS BROWNE'S CHLORODYNE.

Sole Manufacturers, J. T. Davenport Limited, London!

brought here who knows the best method for using oil on our streets. If not that way, then send a man from here to the Coast to learn the best method.

PASSENGER AGENT SMITH—The Wahiawa branch of the O. R. & L. Co. will begin to take pineapples from Wahiawa direct sometime this week and haul them to Honolulu, entirely by rail, but we won't carry passengers for some time after that.

H. P. WOOD—The promotion work is going ahead just as energetically as ever and we are now making a great crusade in the Northwest. This is the "off season" of course, but when cold weather comes along people will begin to think of balmy Hawaii.

STREET CAR CONDUCTOR—Yes, we see the water department men riding around frequently keeping their weather eye open for residents who use the city water for sprinkling purposes when they shouldn't. Those violators of the regulation will hear from the authorities.

F. C. SMITH—I am a believer in the plan to let the newspapers know that is going on. Have no secret meetings from which reporters are barred. Let them in, take them into your confidence, and you will find that the matter will not do them any harm.

E. I. SPALDING—There ought to be some other approach to the crematory on Quarantine Island than by fording the muddy stretch of water between Iwilei and the island. It's a fearful thing. I understand that work on the new crematory in Nuuanu cemetery is started and the excavation for the foundations prepared.

CAPTAIN CARSON OF THE LAHAINA—I know Kohala better than I do Honolulu, for I ran to that section of the big island for many years and I learned to ride a horse there. But those old boys, Hind, Eben Low and others used to play lots of tricks on me and once ran me into a pond, but they couldn't drown an old salt like me.

VETERAN FRED TURRILL—Some of the hardest battles we had during the Civil War were against the graybacks. When you had graybacks in your clothes, you had 'em. We used to draw new clothing complete, go to a stream, undress, go in and bathe and then walk out of the stream to where the new clothes were piled up and dress. The old ones were burned.

M. C. PACHECO—The merits of the dam controversy might easily be determined one way or the other if the Governor would appoint a commission of three competent engineers to look into the matter and report their findings thereon. "Expressions of public opinion" are well enough in politics, but when the peace of mind and perhaps the lives of people are endangered by the faulty (?) construction of a dam wall—it's time for action.

PANELS OF JURORS FOR KAUAI TERM

LIHUE, Kauai, June 21.—The drawings of the grand and trial jurors to serve at the July term of the Fifth Circuit Court at Lihue, Kauai, occurred today with the following result:

Grand Jurors—A. Fries, J. R. Myers, A. de Bretteville, E. Flohr, R. L. Wilcox, G. F. Winter, T. Neal, E. H. W. Broadbent, C. A. Elston, A. D. Hills, C. Christian, H. A. Peller, A. Kruse, J. Scharach, C. W. Grote, H. D. Sloggett, Heli Kapu, I. K. Hart.

Trial Jurors—R. D. Moier, G. Andersen, L. L. Mann, C. O. Foss, G. Hansen, J. P. Jensen, J. A. Combs, Theo. Blackstad, L. McKague, Chas. Daniels, Wm. Hastie, C. W. Smith, H. Wramp, O. C. Wharton, Guy Rankin, W. E. Kerr, F. H. Smith, H. Muller, A. M. Souza, F. Nelson, A. Klusmann, Louis Conradt, P. Engerking, Jas. K. Hart, D. E. Horner, Albert Gandall.

The first Wednesday falling on July 4, the grand jurors are summoned for Thursday, July 5, while the trial jurors are summoned for the following Monday, July 9. The court calendar for the July term is a long one and contains a number of cases continued from last term.

CORNERED BY U. S. S. MARBLEHEAD

WASHINGTON, June 13.—The United States cruiser Marblehead has the American steamer Empire cornered in the harbor of Corinto, Nicaragua, and the moment the little American vessel attempts to leave the Nicaraguan coast it is believed the warship will seize it and bring it to account for the part played in the assisting of Guatemalan revolutionists. The Cabinet considered the case today and it is believed to have decided on punishing the American ship for its activity in the Central American revolution.

The Empire sailed from San Francisco for Central America several weeks ago, and is said to have carried more than 100 men and a number of field guns and much ammunition to the Guatemalan revolutionists at San Jose.
